

TRADITIONAL ANIMATION | ALICJA BRANDT

Analysis:

We were asked to make traditional animation. I always wanted to try this kind of animation and I am happy that I finally tried. I really enjoyed this project as it was something new. For my final piece, I chose animation number 3 which is ball bounce and then turn into a blot. I am not happy actually with my facial expression animation because I took the pictures at home and unfortunately it didn't work.
